Online Payments, Cash Pay, Opt-in Credit Reporting and New Mobile App

7/22/21

To Our Valued Residents:

Mayflower Hills Manufactured Housing Community is moving to 100% online payments and in the future all communications will be electronic as well. Your community manager is available to answer any questions you may have and will be able to assist you in setting things up and making sure that this process goes smoothly. The same late payment and late fee rules will remain in place during this transition. Many of you are already making payments online but for those that do not, it will take a month or two to get used to and we are here to help.

So, with that said, please note: **EFFECTIVE SEPTEMBER 1ST 2021, CASH, MONEY ORDERS AND/OR CHECKS WILL NO LONGER BE ACCEPTED AT THE COMMUNITY. ALL PAYMENTS MUST BE MADE THROUGH A DIGITAL PAYMENT METHOD.**

WHERE DO I PAY?

1. Resident Portal
   - Visit www.mayflowerhills.com and click on Resident Portal to Log In.

2. New Mobile App
   - On your Android or Apple device go to Google Play or the App Store, search and download the **rmResident** app.

3. Cash Pay Location
   - With thousands of locations nationwide, you can conveniently find a Cash Pay location almost anywhere you would buy Money Orders.

Method of Payment	Resident Portal	rmResident App	Cash Pay	Fee to Resident
Cash	--	--	√	$4.00
ACH Transfer/Bank	√	√	--	FREE
Credit Card	√	√	√	2.95%*

**Charged by our payment processor, Zego.*

If you have never made rent payments online, the time is now. Payments can be made from the convenience of your home, office, or mobile device. Online payments are fast, easy and secure.

Thank you for your cooperation with this exciting change as we keep up with the future!

Mayflower Hills Manufactured Housing Community

ZE GO Powered by PayLease

CashPay

A safer, more convenient alternative to money orders

How it works

1. **Residents receive a customized ID**
   Using the Zego admin portal, community managers assign each resident a CheckFreePay® ID. Residents get a physical copy of the ID or can access it from Zego's mobile payment app.

2. **Residents pay from a retail location**
   From any of the 25,000 CheckFreePay® retail locations nationwide (including Wal-Mart), your resident presents the teller with their account ID and cash payment.

3. **We integrate and fund**
   Cash payments are converted into a digital transaction and the funds are deposited into your bank account. CashPay transactions are instantly visible in your accounting software.

4. **Communities thrive**
   CashPay saves community managers from processing manual payments and eliminates fraud and theft. Plus, it reduces the turnaround time for payments to hit your bank account.

Why residents will love it

- Conveniently make a payment while they're out running errands
- No need to purchase multiple money orders
- Don't have to travel back to the community office to drop off their payment
- Pay virtually anywhere including participating mom & pop stores or big box retailers
