Title: Rent Roll Summary Process Flow (Month End Closeout)
Department: Operations
Applies To: This SOP applies to all employees responsible for property management, maintenance, and administrative operations using Rent Manager.

Purpose

To make sure that rent and occupancy information is updated and correct in Rent Manager. It helps Community Managers, Regional Managers, and admin staff follow clear steps and deadlines to review, update, and check the Rent Roll Report. By following this process, we can avoid mistakes, keep records accurate, and make sure everything is updated properly in Rent Manager

---

Procedure

1. Every 25th of the Month

- The Rent Roll Summary Report (PDF) has been sent out to all Community Managers.
- All Community Managers are required to review the report and make any needed updates directly on the PDF.
- For the updates, Community Managers should review and note any changes in the following areas under:

Rent Roll Approval

- Previous and Current Resident Name
- Previous and Current Unit Type
- Previous and Current Charges (including Lot Rent, Water, Trash, MH Rent)

- If there are no changes to the report, please sign the Rent Roll Approval and send it to your assigned Regional Manager via email.

Vacancy

- Previous and Current Resident Name
- Previous and Current Unit Type

- If there are no changes in the Vacancy report kindly fix your signature and email to your respective Regional Managers

On the 27th and 28th of the Month

- Regional Managers will then save the PDF Reports under: **Operations > [Property Name] . 8. Reports_Month End Closeout > [Month] [Year]**
- Regional Managers are responsible for gathering the updates from all communities and recording the information in the **Month End Tracker Report**. A template is already saved in: **Operations > _Weekly Reports > Month End Tracker > Team Name**

2. On the 29th of the Month

- a. The **Director of Operations (Natalie)** will review and approve the **Month End Tracker Report**.
- b. After approval, **Clarissa** will send the Excel summary to **Justin**, copying the respective Regional Managers and Director, for system updating purposes.

3. Final Verification

- Once Justin confirms that all updates have been entered into Rent Manager, Clarissa will perform a final check to ensure everything is correctly updated in the system.
