Refer to "Total" under "Monthly Payments" column above to calculate total Debt versus their stated Income
Income is determined by taking the Annual Amount listed in their application and dividing by 12 (months).
Debt to Income can then be calculated by taking the total monthly payment above, adding that to the community lot rent, and dividing by their total monthly income. See formula at right > > >
When you have 2 applicants applying to live together, use this same formula, and base a decision on the applicant with the better debt to income ratio.

Annual Income = $65,000 | Monthly Income = $5,416 ($65,000 / 12)

Total Debt = $1551 ($901 in Monthly Payments + $650 Lot Rent Example)

Total Debt to Income Percentage = 28.6 % ($1551 / $5416 = .028637 x 100)

Criminal Records Coverage Details

This section consists of criminal records obtained from public record sources and are not guaranteed to be accurate.

In order to determine whether the individual is the defendant described in the criminal record, compare the defendant's information with the information you have on the applicant. A criminal record will often contain the defendant's full name and physical characteristics.

A search for Sex Offender Registry Records was performed and is limited to the information available from AmRent's vendors. Sex Offender Registry Records may exist on this subject, but may not be available from AmRent's vendors or may not be able to be accessed based upon the information that the user provides. Sex offender records may be accessed through the Dru Sjodin National Sex Offender Website search engine.

***If debt to income is high, but as you see here, a mortgage obligation is noted under their credit history, you can ask applicant if they plan to sell their home prior to moving in - if they do, this monthly payment amount can technically be removed from their total debt calculation. If they do not plan to sell, the mortgage should be
