Title: Home Delivery Confirmation Process
Applies To: Operations Team and Construction Team
Department: Operations / Construction
System Used: Birdcage JotForm Application

Purpose

To ensure all delivered homes are properly verified, documented, and confirmed upon arrival at the assigned community and lot. This SOP establishes a standardized process for completing the Home Delivery Confirmation Form through the Birdcage JotForm application.

The process ensures:

- The correct home is delivered
- The home is placed on the correct lot/unit
- The condition of the home is properly documented at time of delivery
- All required documentation is completed same day
- Any damages or concerns are immediately reported

SCOPE

This SOP applies to all Parakeet personnel responsible for receiving and documenting home deliveries, including:

- Operations Team
- Construction Team
- Assigned Onsite Representative

RESPONSIBILITIES

Onsite Representative Responsibilities:

- Completing the Home Delivery Confirmation Form in full
- Verifying the home serial number matches delivery records
- Confirming the home is placed on the correct lot
- Taking and uploading all required photos
- Documenting any visible damage or concerns
- Submitting the completed form the same day as delivery

Regional / Construction Team Responsibilities

- Review reported damages or concerns
- Coordinate corrective actions if issues are identified
- Maintain documentation records for compliance and tracking

PROCEDURE

Phase 1: Accessing the JotForm

Get the App

Objective:

- Access the Birdcage JotForm system and open the correct delivery confirmation form.

Steps:

1. Open the Birdcage JotForm application.
2. Select: "**Home Delivery Confirmation**"
3. Ensure all required fields are completed before submission.

Phase 2: Delivery Information Verification

Objective:

- Verify that the correct home has been delivered and properly placed.

Required Information:

The onsite representative must complete the following fields:

1. Community Name
2. Lot/Unit Number
3. Home Serial Number
4. Manufacturer
5. Transporter

Verification Requirements:

1. The serial number entered in the form must match the serial number physically attached to the home.
2. The home must be confirmed on the correct lot/unit location.
3. Any discrepancies must be immediately be reported before submission.

Phase 3: Photo Documentation

Objective:

- Document the condition and placement of the home at the time of delivery.

Photo Requirement

Clear photos must be taken and uploaded for the following:

1. Serial number on the home
2. Front of the home on the lot
3. Left side of the home
4. Right side of the home
5. Back of the home

Photo Standards

1. Photos must be clear and readable
2. Photos must be taken at time of delivery
3. Images must accurately show the condition of the home
4. Blurry or incomplete photos are not acceptable

Phase 4: Final Submission

Objective:

- Complete and officially submit the delivery confirmation.

Final Steps:

1. Enter your full name
2. Enter your email address
3. Provide your electronic signature
4. Review all entries for accuracy
5. Submit the form

IMPORTANT COMPLIANCE REQUIREMENTS

Same-Day Submission Requirements

- The Home Delivery Confirmation Form must be completed and submitted on the same day as delivery.
- No exceptions are permitted unless approved by management.

Incomplete Submission Policy

- Incomplete submissions will be rejected.
- Missing photos or missing information will require the form to be redone.

Delivery Acceptance Policy

- A home is not officially considered received until the Home Delivery Confirmation Form has been fully submitted.

DAMAGE OR ISSUE REPORTING PROCEDURE

Objective

- Ensure visible damages or delivery concerns are documented and escalated immediately.

If Issues Are Identified

If visible damage, missing components, or concerns are found:

1. Complete the Home Delivery Confirmation Form as required.
2. Document all visible concerns through clear photos.
3. Immediately notify the Regional Team and/or Construction Team.
4. Provide details of the issue including:
    a. Type of damage
    b. Location of damage
    c. Severity
    d. Supporting photos

Examples of Reportable Issues

1. Exterior siding damage
2. Roof damage
3. Broken windows
4. Missing components
5. Improper placement on lot
6. Transportation damage
7. Structural concerns
