PARAKEET LEASE WORKFLOW (END-TO-END)

Two Execution Paths: Digital (E-Sign) or Manual (Print & Upload)

START TRIGGER — Rent Increase Notice Sent / Lease Expiration Approaching

ROLE LEGEND
- Community Manager (CM)
- System (Rent Manager)

PHASE 1 — LEASE IDENTIFICATION & PREPARATION

1. **Review Rent Increase / Expiring Leases List** — Identify units requiring New Lease or Renewal — CM
2. **Validate Tenant Information** — Confirm tenant status and account details — CM
3. **Confirm Unit Assignment** — Verify unit is correct and available — CM
4. **Confirm Rent Amount** — Review approved rent increase / terms — CM

PHASE 2 — LEASE CREATION (RENT MANAGER)

Create Lease in Rent Manager Express

1. **Log In** — Log in to Rent Manager Express — CM
2. **Navigate** — Go to Property → Tenant Profile — CM
3. **New or Renew** — Click Leases → New Lease / Renew Lease — CM
4. **Select Template** — Choose the appropriate lease template — CM
5. **Enter Lease Details** — Lease dates, term, rent, deposit, recurring charges, etc. — CM
6. **Save Lease** — Save the lease in the system — System

PHASE 3 — LEASE EXECUTION (CHOOSE ONE PATH)

PATH A: DIGITAL LEASE WORKFLOW (E-SIGNATURE)

1. **Generate Lease Document** — Click Generate Lease Document. Review merge fields & details. — System
2. **Publish Document** — Click Publish Document. — System
3. **Enable E-Signature** — Assign signers: Tenant(s). Verify email addresses. — CM
4. **Send for Signature** — Add message (optional). Send via email. — CM
5. **Track Signature Status** — Monitor under Pending Signatures: Published → Pending Approval → Signed — CM
6. **Follow Up** — Send reminders if necessary. — CM
7. **Finalize Lease** — Once all parties sign: — CM
   - Status = Completed
   - Download signed lease
   - Upload/store in tenant profile
   - Update lease status to Active
   - Confirm billing schedule

PATH B: MANUAL LEASE WORKFLOW (PRINT & UPLOAD)

1. **Generate Lease Document** — Click Generate Lease Document. Review PDF for accuracy. — System
2. **Print Lease** — Print the lease for tenant. — CM
3. **Obtain Signatures** — Tenant signs. — CM
4. **Upload Signed Lease** — Scan and upload to Tenant Profile → Notes / Lease Agreement. — CM
5. **Final Verification** — Confirm all signatures complete. Verify rent & charges are correct. — CM
6. **Activate Lease** — Update lease status to Active. Ensure billing schedule is correct. — CM

PHASE 4 — QUALITY CONTROL & ACTIVATION (APPLIES TO BOTH PATHS)

Final Quality Check & Activation

- Tenant & Unit Details Correct
- Rent & Charges Match Approved Amount
- Security Deposit Recorded (if applicable)
- All Signatures Completed
- Lease Uploaded (if Manual Path)
- Billing Schedule Confirmed
- Lease Status = Active

END RESULT — Lease is fully executed, stored, and active. Tenant billed accurately and lease lifecycle continues.

RISKS IF NOT ADDRESSED
- Incorrect rent → revenue loss
- Missing signatures → unenforceable lease
- Lease not activated → billing errors
- Delays in sending → occupancy gaps / disputes
