Process Matrix – Original Team Verbiage

Compiled from Zach, Berman, John Clark, and Leslie responses

Matrix 1: Process Inventory by Person (Original Verbiage)

Category	Zach	Berman	John Clark	Leslie
Department-specific processes currently in place	• Due Diligence & Acquisition Process (can get very granular here if needed) • Rent Increase & Tax Pass throughs • Quarterly Reporting	• Monthly close and associated entries & reconciliations • Payroll Processing (Stateside and Overseas) • All Tax Matters (K-1s, 1099s, W-2s, 1065s, etc.) • Financial Reporting Distribution to all third parties (moving forward) • Debt Payment Processing • Insurance Renewals & Negotiations • HR Compliance Matters	• 5-15 reporting weekly • Receiving New Homes • Requirements for project planning.	• Home Listing Request jotForm • Professional photographer requests • Request to Change Listing jotForm • Online marketing material orders • Call / Email inquiries – tour requests/bookings • Web platform audits – confirmation of contact info and current photography • Infill – factory floorplan selection, scheduling, order placement • Rental conversion – pricing analysis and approval for purchase • CRM management of workflows and direct correlation to RM prospects/applications
Cross-department processes currently in place	• Acquisition transitions • TBD Unit determinations • WIP close outs • Budgets	• Insurance Claim Matters • All AP Matters through Avid/Ramp – workflow structuring, etc. • Fixed Asset Matters – Ongoing Construction, Placing Assets into Service, POH capitalization/opex coordination • Payroll Compliance Matters (W-2 vs. 1099) • License/Registration Renewal Compliance Matters • Utility specific requests	• Project (Capex) planning for properties. • Coordination for project completion. • Information required to complete projects.	• HOMES - listing, readiness, tours, offers, sales/rentals, rehab, infill • Marketing material orders, creation • Rental conversion – pricing analysis and approval for purchase

		• Campspot Matters • Home sales process (being fine tuned) • Utility onboarding for new deals		
Processes we need but do not currently have in place	• Utility recapture review • Utility transfers for rehabs and infills • Corporate Model upkeep • Monthly/quarterly property business plan reviews	• Park owned home related compliance matters • Regular cash forecasting (once clearing decks on intercompany balances - Bringing on FP&A Associate) • Utility recapture tracking and ongoing monitoring	• Comprehensive hands on training for MT staff. • Interdepartmental meetings for coordination of planning/projects. • Delineation of what the "dotted line" to the facilities team looks like.	• Communication channels – dedicated means of communication based on the subject matter – clickup, jotform, shared drive, email, teams, etc. • Who receives emails and when to limit overall volume and unnecessary inclusion/feedback • One source of truth for anything related to Assets – demos, rehabs, vendor assignments, work orders, infills, sells, loan and insurance info • File system – clean existing – How/Where to save docs – demonstrate proper means to save/store to eliminate redundancies • ACCOUNTING – Steps /triggers to properly allocate Asset-related expenses, i.e. county tax accounts/payments, POH/infill insurance additions and removals, rental line additions, floorplan/new line additions, utility on/off, closing statement calculations to ensure closing funds are accurate and wired/deposited to the correct accounts • New loan default/assumption procedures when Parakeet is the backstop – what does this look like and how does it

				affect our line • Repo home procedures
Processes currently in place that your department should be involved in, but is not	• Evictions, delinquency & A/R reporting • Title transfer reporting	• Deals and Due Diligence (entity structuring, banks, etc.) • Corporate Modeling • Final Company Wide Budget Ownership – Bringing on FP&A Associate	• Capex expenditures above $XX. • Emergency high level issue reporting (formalized). • Assessing skill levels of MT staff and what should be done by them to control costs.	• Move in / move out notices – sales docs, listings, CRM updates • Resident to resident transactions • I was receiving reports on pricing data but those stopped. Not sure I need to be notified always, but the data should be recorded consistently so we can use for pricing and dealer strategies • Acquisitions (believe its coming but..) - signage/branding needs, digital/domain transfers, POH inventory review, specifically title status • New hire notifications – contacts for prospects/tours/sales – training needs

Matrix 2: Similar Issues Raised Across the Group (Original Verbiage)

Common Issue / Theme	Zach	Berman	John Clark	Leslie
Utility process gaps	• Utility recapture review • Utility transfers for rehabs and infills	• Utility specific requests • Utility onboarding for new deals • Utility recapture tracking and ongoing monitoring	• —	• ACCOUNTING – Steps /triggers to properly allocate Asset-related expenses ... utility on/off
Acquisition / due diligence visibility	• Due Diligence & Acquisition Process • Acquisition transitions	• Deals and Due Diligence (entity structuring, banks, etc.)	• —	• Acquisitions ... signage/branding needs, digital/domain transfers, POH inventory review, specifically title status
Budgeting / forecasting / modeling	• Budgets • Corporate Model upkeep • Monthly/quarterly property business plan reviews	• Regular cash forecasting • Corporate Modeling • Final Company Wide Budget Ownership	• Project (Capex) planning for properties	• ACCOUNTING triggers affecting allocations and closing statement calculations
Asset / POH / title tracking	• Title transfer reporting	• Fixed Asset Matters • Park owned home related compliance matters	• Receiving New Homes • Requirements for project planning	• One source of truth for anything related to Assets • POH inventory review, specifically title status
Cross-department communication gaps	• Implied through A/R, title, and business plan review visibility	• Implied through DD, modeling, and budget ownership visibility	• Interdepartmental meetings for coordination of planning/projects • Delineation of what the "dotted line" to the facilities team looks like.	• Communication channels • Who receives emails and when • File system cleanup
CapEx / project planning / approvals	• WIP close outs	• Fixed Asset Matters – Ongoing Construction, Placing Assets into Service, POH capitalization/opex coordination	• Project (Capex) planning for properties • Capex expenditures above $XX. • Emergency high level issue reporting (formalized).	• Asset-related expenses • loan/default procedures tied to asset activity
Reporting / visibility gaps	• Evictions, delinquency & A/R reporting • Title transfer	• Financial Reporting Distribution • cash forecasting • budget ownership	• Emergency high level issue reporting • Assessing skill levels of MT staff	• Move in / move out notices • pricing data • acquisitions

	reporting			• visibility • new hire notifications

Note: Wording in the cells is preserved as closely as possible from the team responses, with only light formatting cleanup for table readability.
